Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

In accordance with 37 C.F.R. § 1.59(b) and M.P.E.P. § 1002.02(c), Petitioner respectfully requests that a decision be made on Petitioner's outstanding petition to expunge information from the above-referenced patent application. The information to be expunged is a drawing entitled "AMOFOAM® Die Lip Assembly" by D. Nordgren dated December 22, 1998.

The drawing to be expunged was originally submitted to the Patent Office on February 11, 2002 for consideration by the Examiner. A copy of Petitioner's earlier petition filed on February 11, 2002 is annexed hereto as Exhibit A.

In a communication filed August 19, 2002, the Patent Office indicated that the decision on Petitioner's petition would be held in abeyance until prosecution on the merits was closed, at which time the petition would be decided. A copy of this communication is annexed hereto as Exhibit B.

Prosecution on the merits was closed on December 19, 2004, when the application was abandoned for failure to respond to a final office action. A copy of the notice of abandonment is annexed hereto as Exhibit C.

Counsel of record has contacted the Patent Office by telephone on several occasions to determine the status of Petitioner's petition. However, no action has been taken to date on Petitioner's petition. Petitioner thus respectfully requests that the outstanding petition to expunge in the above identified application be decided.

No fee or extension of time is believed to be due for this submission. If such a fee or extension is required, please charge any required fees relating to the filing of this paper to Winston & Strawn LLP deposit account no. 50-1814, Ref. No. 86056-05200-USPT.

DECISION ON
PETITION

For: EXTRUSION DIE WITH HORIZONTAL AND
VERTICAL EXTRUDATE OPENING
ADJUSTMENT

This is a decision on the PETITION TO EXPUNGE UNDER MPEP 724.05 AND RULE 59(b): PETITION TO EXPUNGE MATERIALS SUBMITTED UNDER MPEP 724, 724.02, AND 724.05, filed on February 12, 2002 which has been accepted as a timely petition, and is before the Group Director of Technology Center 1700 for consideration.

DECISION

The decision on the petition will be held in abeyance until prosecution on the merits is closed, at which time the petition will be decided, pursuant to MPEP 724.06 (August 2001)

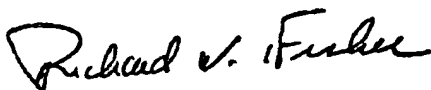

Petitioner requests that a document entitled CONFIDENTIAL .., filed February 25, 2000 be expunged from the record. Petition states either: (A) that the information contains trade secret material, proprietary material and/or material which is subject to a protective order which has not been public; or (B) that the information submitted was unintentionally submitted and the failure to obtain its return would cause irreparable harm to the party who submitted the information or to the party in interest on whose behalf the information was submitted, and the information has not otherwise been made public. The petition fee set forth in 37 C.F.R. 1.17(I) has been paid.

The decision on the petition is held in abeyance because prosecution on the merits is not closed. Accordingly, it is not appropriate to make a final determination of whether or not the material requested to be expunged is "material," with materiality being defined as any information which the examiner considers as being important to a determination of patentability of the claims. Thus, the decision on the petition to expunge must be held in abeyance at this time.

DOCKETEDINIT. *J* DATE: *8-26-02*ACTION: *Decision on* DATE: *8-19-02*

During prosecution on the merits, the examiner will determine whether or not the identified document is considered to be "material". As soon as the applicant is advised by the examiner that the material submitted is not relevant to the patentability determination, the petition will be reconsidered.

The petition is **DISMISSED**.
